

COVERING EVENTS WORLDWIDE

## WE DON'T JUST PUT THE FLOOR IN... WE TAKE THE WORRY OUT

From the London 2012 Olympic Games to Formula One Grand Prix in Singapore and Melbourne, rock concerts and festivals. Big names such as U2, Pearl Jam, AC/DC, Billy Joel, Elton John, Foo Fighters, Bee Gees, Paul Mc Cartney and The Rolling Stones have all benefited by being able to hold concerts in stadiums protected by Profloor products.

Whatever size. Whatever surface. Whatever style. If your event matters to you and you want it to run smoothly, we have the very best portable floor solutions - in the world.

Our professional service includes site inspections and expert advice. We sell. We rent. We install. We remove. We clean up. We leave no mess. We give grass the very best chance of survival by using grass-friendly plastic as opposed to heat transmitting metal trackway and our products are so simple to use, you could leave it to the kids.

Installation and removal is fast and efficient and we have a wide range of colour options, perfect for branding or blending with the landscape. Profloor products are a more cost effective option as a temporary roadway than the old methods such as crushed rock, plywood, steel or aluminium.

## RENT? BUY? WHATEVER SUITS

### RENT

We work hard to make this easy and provide the option that suits you best. 'Dry hire' means you pick up the floor, install it yourself and bring it back for cleaning. Alternatively we offer a turnkey service where we deliver, install, manage, remove and clean... all for the one simple square metre rate.

### BUY

If you hold events on an ongoing basis, it is smart business to consider purchasing your own extremely durable, easy to maintain floor. Our professional staff will help you make the right decision to suit your long term needs.

## WE MANUFACTURE

We don't just supply and install, uniquely in this market, we also manufacture all of our own product either in Australia or in Europe. So you can be sure you aren't just getting the best service, but also the very best assurance of product quality.

## YES, WE INSTALL!

Your first step is a phone call. Our extensive experience means we know the questions to ask - quickly, efficiently and accurately to ensure a hassle free event.

Once we know the details of your event, we can recommend the right product.

If there are any concerns, a site inspection is recommended.

Your quote is then sent for approval and the job is booked in. We do the rest.

When the big day arrives - we handle everything - from unloading, to accurate installation of the selected Profloor product, maintenance during the event and efficient removal on completion.

The area is then completely cleared before handing over.

The site is left as we found it. The job is done.

## LIGHTWEIGHT TO HEAVYDUTY

We can supply and install a portable floor for every need. From simply protecting a surface from pedestrians, right through to the heaviest loads, such as installing an access road for cranes and trucks. There is no limit to our expertise, we can even protect your surface from tanks!

LIGHT

MEDIUM

HEAVY

## WHO AND WHAT DOES PROFLOOR PROTECT?

All surfaces, indoors and out, smooth and rough, flat or uneven benefit from the kind of protection we provide. We protect stadium grass (or artificial grass) from crowds dancing in their thousands or large groups of people walking and running. We also cover timber basketball courts, playgrounds and other playing surfaces. Protection from vehicle traffic is a common problem we solve every day.

Stadium grass.

Playing surfaces.

Without Profloor.

With Profloor.

Sports surfaces and access ways.

Vehicle traffic.

## HIGHEST QUALITY

Profloor products are made from the highest quality engineering grade polymers to achieve maximum strength and performance. They are tested for slip resistance, fire rating and turf protection qualities.

## CHOOSE YOUR COLOUR

We supply a large range of standard colours and can make custom colours to co-ordinate with logos or existing colour schemes.

## LIGHT, WATER AND AIR CIRCULATION

**PROFLOOR PRODUCT SELECTOR GUIDE** Whatever your surface, whatever your event... we have the perfect product to cover and protect it.

PEDESTRIAN TRAFFIC

**Pro-Floor® EF**  
Event flooring

- Versatile and light-weight flooring.
- Rolls up for storage and handling.
- Protects grass and other sensitive surfaces.
- Keeps grass alive by allowing air, light and water transmission.
- Corporate branding.

Typical uses:

Grass protection, Concerts, Dance floors, Stadium Covers, Pathways, Camping, Exhibitions, Marquee floors, Building sites.

Surfaces covered:

**LOADS** <29,000 kg/m<sup>2</sup> (static)

Available in grey, green, black, red, white, yellow, blue and taupe.

PEDESTRIAN TRAFFIC

**Pro-Floor® GP**  
Grass protection

- Specifically designed as a cover for stadium grass, golf courses and turf clubs.
- Promotes grass growth.
- Special translucent polymer allows light to permeate through the flooring.
- Grass can remain covered for longer than PRO-FLOOR® EF.
- Variant of PRO-FLOOR® EF.

Typical uses:

Grass protection, Concerts, Dance floors, Stadium Covers, Pathways, Camping, Exhibitions.

Surfaces covered:

**LOADS** <29,000 kg/m<sup>2</sup> (static)

Available in a translucent creamy white colour.

PEDESTRIAN TRAFFIC

**Pro-Floor® GLO**  
Glow in the dark

- A glow-in-the-dark floor tile that interlocks with all other PRO-FLOOR® variants.
- High visibility for night time events to indicate the end of seat rows, emergency exits and illuminating a path to toilets.
- Charges in sunlight, glows up to 4hrs.

Typical uses:

Grass protection, Concerts, Dance floors, Stadium Covers, Pathways, Pit garages, Exhibitions, Marquee floors.

Surfaces covered:

**LOADS** <29,000 kg/m<sup>2</sup> (static)

Available in a translucent creamy white colour with a hint of pale green.

PEDESTRIAN TRAFFIC

**Pro-Floor® IPS**  
Ice protection

- Withstands temperatures -10°C.
- Insulating underlay (non-stick).
- Ice remains frozen even if room temperature is 20°C+.
- PRO-FLOOR® EF floor top layer, suitable for foot traffic, chairs, tables and heavy static loads such as cars.

Typical uses:

Concerts, Dance floors, Ice rinks, Exhibitions.

Surfaces covered:

**LOADS** <29,000 kg/m<sup>2</sup> (static)

Available in grey, green, black, red, white, yellow, blue and special order.

PARKING CARS

**Pro-Floor® MR**  
Garage flooring

- Resistant to common automotive fluids used such as petrol, oils, brake and clutch fluids and cleaning solvents.
- Capable of withstanding high static loads such as cars.
- Keeps tools and people clean and out of the paddock mud.

Typical uses:

Grass protection, Pathways, Pit garages, Camping, Exhibitions, Marquee floors.

Surfaces covered:

**LOADS** <29,000 kg/m<sup>2</sup> (static)

Available in grey, green, black, red, white, yellow, blue and taupe.

LIGHT-MED VEHICLE TRAFFIC

**Pro-Track®**  
Portable roadway

- Light-weight portable road.
- Supports light-medium vehicles.
- Protects natural grass and other surfaces from being rutted by wheel loads and traffic.
- Hexagonal shape tiles that can link together to form a roadway.
- Provides clean access for vehicles.

Typical uses:

Stadium Covers, Pathways, Access roads, Pit garages, Camping, Exhibitions, Marquee floors, Carports, Building sites.

Surfaces covered:

**LOADS** 3-5 tonnes per wheel

Available in grey, custom colours on request.

MEDIUM VEHICLE TRAFFIC

**Pro-Tech Mats®**  
Rapid deployment

- Allows access for vehicles over soft or boggy ground.
- Supports the weight of cars, vans, trucks and cranes.
- Very tough and flexible.
- Easy to use for rapid deployment
- Portable rectangular mats that can lock together.

Typical uses:

Access roads, Crane access, Building sites.

Surfaces covered:

**LOADS** 5+ tonnes per wheel

Available in natural and black, custom colours on request.

MED-HEAVY VEHICLE TRAFFIC

**Pro-Zone®**  
Heavy duty platform

- May be used as a road for heavy slow moving vehicles.
- Ideally suited to construction traffic for sport stadiums.
- Protects any underground services.
- Square tile that locks together with a cam-lock system.

Typical uses:

Concerts, Stadium Covers, Access roads, Exhibitions, Marquee floors, Crane access, Carports, Building sites.

Surfaces covered:

**LOADS** 7+ tonne per wheel

Available in a beige and grey.

MED-HEAVY VEHICLE TRAFFIC

**Pro-Grid™**  
Ground reinforcement

- Low cost and permanent.
- Used for carports and to stop soil erosion.
- Individual tiles lock together and placed over a prepared base.
- Holes in the tiles are then filled with an aggregate.
- Soil and grass may then be overlaid.

Typical uses:

Pathways, Access roads, Carports, Building sites.

Surfaces covered:

**LOADS** 8+ tonne per wheel

Available in black.

HEAVY VEHICLE TRAFFIC

**Pro-Max™**  
Heavy duty roadway

- Supports huge loads such as buses, trucks and cranes.
- Maximum strength but still light-weight.
- Can stay over grass for 3 times longer than aluminium panels without turf damage.
- Square, modular shape with an interlocking underlay.

Typical uses:

Concerts, Stadium Covers, Access roads, Exhibitions, Crane access, Carports, Building sites.

Surfaces covered:

**LOADS** 10+ tonne per wheel

Available in grey, black, yellow and white. Custom colours on request.
